Target version:	Unplanned backlogs			
Resolution:				

Description
On documents module, add/edit/remove attachments is missing when document is edited...

History

#1 - 2019-12-18 02:27 - Yuichi HARADA

- File change_editing_document.png added

- File 31472-add-file-upload.patch added

This patch adds features similar to [#16410](#) to the documents.
When editing a document, you can operate (add and bulk delete) the attachments.

- Target version set to Unplanned backlogs

Sweet! Thanks for sharing the patch. Scheduled without substantive patch review.

NB: I think it would be nice to introduce this functionality similarly for the remaining attachment containers (news and messages) too.

When performing bulk delete, the Attachment's after_commit callback method Attachment#delete_from_disk was not executed.
I fixed a patch.

#5 - 2021-03-12 08:26 - Yuichi HARADA

- File 31472-add-file-upload-v3.patch added

When performing bulk delete, the Attachment's after_commit callback method Attachment#delete_from_disk was not executed.
I fixed a patch.

I have improved Document#delete_selected_attachments.
