Description	
<p>You can quote a note by clicking the comment icon. ScreenShot-2019-06-07-14.11.29.png</p> <p>I think this icon is not general as an icon representing a quote. https://fontawesome.com/icons?q=quote https://octicons.github.com/icon/quote/ https://material.io/tools/icons/?search=quote&icon=format_quote&style=baseline</p> <p>I suggest changing to the Quotation marks that are used on many websites. e.g. quote.png</p>
