

Redmine - Feature #31559

Support "active" attribute in Enumerations REST API

2019-06-12 10:52 - Michel Albert

Status: Closed	Start date:
Priority: Normal	Due date:
Assignee: Go MAEDA	% Done: 0%
Category: REST API	Estimated time: 0.00 hour
Target version: 4.1.0	
Resolution: Fixed	
Description	
Expected behaviour	
When doing a HTTP request to /enumerations/time_entry_activities.json it should only return activities marked as "active"	
Observed behaviour	
<ul style="list-style-type: none">- All activities are returned- Additionally, the returned values don't contain the values for the "active" field, so filtering on the client-side after fetching is not possible either.	
Additional notes	
<ul style="list-style-type: none">- This was observed on Redmine 3.3.2- I also came across #8573 which notes something similar, but not for the API.

I think it is better to add "active" field to the response instead of omitting inactive enumerations. What do you think?

#2 - 2019-06-13 13:47 - Michel Albert

Yes. That would work perfectly as well.

#3 - 2019-06-29 11:15 - Go MAEDA

- File 31559.patch added

- Tracker changed from Defect to Feature

- Subject changed from *The API on enumerations returns inactive entries as well to Support "active" attribute in Enumerations REST API*
- Target version set to 4.1.0

Here is a patch to add "active" attribute to Enumerations API.

#4 - 2019-06-30 07:58 - Go MAEDA

- Status changed from *New to Closed*
- Assignee set to *Go MAEDA*
- Resolution set to *Fixed*

Committed the patch.
