Target version:		Affected version:	4.0.4																						
Resolution:	Fixed																								
Description																									
<p>Hi,</p> <p>We have found an error in the roles of the users.</p> <p>I thought it only happened in version 3.3.1, but it also happens in actual version 4.0.4.</p> <p>we have a user called for example <code>"user1"</code> with a <code>"reporter"</code> role but in this role the option <code>"Issues can be assigned to this role"</code> when is disabled.</p> <p>It happens that another user with a <code>"developer"</code> role or any other user that can assign tasks to another user, allows you to assign it to <code>"user1"</code> when it should not be possible because the latter belongs to the role of <code>"reporter"</code>.</p> <p>It seems that the assignment error occurs when the author of the task is the same as the <code>"reporter"</code> role.</p> <p>Proven environments where it fails</p> <table><tr><td>Redmine version</td><td>4.0.4.stable</td></tr><tr><td>Ruby version</td><td>2.6.3-p62 (2019-04-16) [x86_64-linux]</td></tr><tr><td>Rails version</td><td>5.2.3</td></tr><tr><td>Environment</td><td>production</td></tr><tr><td>Database adapter</td><td>SQLite</td></tr><tr><td>Mailer queue</td><td>ActiveJob::QueueAdapters::AsyncAdapter</td></tr><tr><td>Mailer delivery</td><td>smtp</td></tr></table> <p>SCM:</p> <table><tr><td>Subversion</td><td>1.9.5</td></tr><tr><td>Mercurial</td><td>4.0</td></tr><tr><td>Bazaar</td><td>2.8.0</td></tr><tr><td>Git</td><td>2.11.0</td></tr></table> <p>Redmine version 3.3.1.stable Ruby version 2.3.3-p222 (2016-11-21) [x86_64-linux-gnu] Rails version 4.2.7.1 Environment production Database adapter Mysql2</p> <p>Best Regards</p>				Redmine version	4.0.4.stable	Ruby version	2.6.3-p62 (2019-04-16) [x86_64-linux]	Rails version	5.2.3	Environment	production	Database adapter	SQLite	Mailer queue	ActiveJob::QueueAdapters::AsyncAdapter	Mailer delivery	smtp	Subversion	1.9.5	Mercurial	4.0	Bazaar	2.8.0	Git	2.11.0
