<b>Description</b> Project manager always assigns hundreds of issues to developers. ;) It's not easy for him to track everyone of them. The issues shown in my page are always the latest 10 updated. Pagination is needed for sure in this case.  Thanks -- caocao

I'm currently trying to make "my page" better, I hope this one will also be included.

As of rev 684, you can view all the assigned/reported issues (links added on 'My page' blocks).
