Target version:				
Resolution:	Duplicate			

Description
Would be useful if it was possible to save in settings which checkboxes should be active by default. We need that WIKI edits are visible all the time in activity page, but for no reason it is not active by default.

This can be quite easily changed manually in the source-code by modifying source:trunk/lib/redmine.rb@2638#L157 from:

```
activity.register :wiki_pages, :class_name => 'WikiContent::Version', :default => false
```

to:

```
activity.register :wiki_pages, :class_name => 'WikiContent::Version'
```

Regards,

Mischa.
