

Redmine - Patch #31971

Change the color of the input field frame when in focus

2019-08-29 02:55 - Mizuki ISHIKAWA

Status: Closed	Start date:
Priority: Normal	Due date:
Assignee: Go MAEDA	% Done: 0%
Category: UI	Estimated time: 0.00 hour
Target version: 4.1.0	
Description	
<p>In Redmine 4.0, the frame color changed when the input field was focused. When the trunk Redmine is run on a browser such as Firefox, the frame color no changes.</p> <p>I attached a patch to change the frame color. Screenshot after patching: ScreenShot-2019-08-29-9.33.14.png</p>

Revision 18524 - 2019-09-25 03:48 - Go MAEDA

Highlight the input field that has focus by setting border-color (#31971).

Patch by Mizuki ISHIKAWA.

Revision 18527 - 2019-09-25 09:36 - Go MAEDA

input[type="number"] should be highlighted as well when it has focus (#31971).

Thank you for your feedback. I will add English translation to #31971#note-2 later.

Do you mean that the patch breaks the auto-complete feature? I could not reproduce the problem. The patch changes only the appearance of elements, so I think it does not affect auto-complete.

Could you describe the detailed steps to reproduce and attach screenshots?

#5 - 2019-09-21 17:16 - Go MAEDA

- File *corners-not-rounded.png* added
- File *rounded-outline.png* added

I tried out the patch with Firefox. It made the appearance nicer but I round a problem. Input fields have rounded corners, but the corners of the outline are not rounded.

corners-not-rounded.png

How about updating the patch as follows? I think it makes the appearance much nicer.

```

The change looks better!

I think it would be better to change "border: 1.5px" to "border: 1px" to match the existing border style.

Thank you for your feedback. I think the patch in #31971#note-7 is ready to commit.

Go Maeda, Mizuki, is there any reason for why you chose to target each type of input instead of using input?
