

## Redmine - Defect #32003

### Project copy always send email notifications ignoring "Send email notifications during the project copy" option

2019-09-04 04:00 - Yuichi HARADA

<b>Status:</b>	Confirmed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Email notifications	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	4.0.0
<b>Resolution:</b>			
<b>Description</b>			
<p>When copying a project in the projects list(Administration &gt; Projects), you can disable sending an email by unchecking the "Send email notifications during the project copy" checkbox.</p> <p>However, even if this checkbox is unchecking, email notifications are sent.</p> <p>ScreenShot_2019-09-04.png</p>			

#### History

##### #1 - 2019-09-13 08:01 - Go MAEDA

- Subject changed from *When copying a project, send an email even if email notification is not required to Project copy always send email notifications ignoring "Send email notifications during the project copy" option*
- Category set to *Email notifications*
- Status changed from *New* to *Confirmed*
- Affected version set to *4.0.0*

The option does not work since Redmine 4.0.0. Probably it is caused by #26791. Replacing `deliver_later` with `deliver` in `app/models/mailer.rb` can be a quick-and-dirty workaround.

##### #2 - 2019-09-13 11:27 - Pavel Rosický

this method is problematic and should be deprecated because it can't reliably work with async deliveries

<https://github.com/redmine/redmine/blob/master/app/models/mailer.rb#L611>

it might be better not to generate emails at all if you don't want to send them
