

## Redmine - Patch #32014

### Rounded corners on table.list elements

2019-09-04 18:56 - Anonymous

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Go MAEDA	<b>% Done:</b>	0%
<b>Category:</b>	UI	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	4.1.0		
<b>Description</b>			
Same motivation as in <a href="#">#32013</a> The patch doesn't make calendar and gantt tables rounded though, due to more complex structure that they have, hence requiring different approach.

The patch removes border-collapse property. Do you think it is OK? (sorry if this is a stupid question. I am not a CSS expert).

##### #4 - 2019-09-27 17:03 - Anonymous

Go, roundness with **border-radius** on table elements can't seem to be achieved if **border-collapse: collapse**; is present, so I cleared it in a favor of **border-spacing: 0**; for this reason, which it did seem like does the same thing, only, unlike **border-collapse**, it doesn't block **border-radius** to be applied.

##### #5 - 2019-09-27 17:26 - Bernhard Rohloff

Yes, as Antonio wrote, it's necessary to get the border radius and border-spacing: 0; compensates it.

One notice of caution: I played with the border radius and found out that the cells don't get clipped to the round shape. Maybe an additional overflow: hidden; is missing here.

##### #6 - 2019-09-27 20:46 - Anonymous

- File *rounded-tables(excl-calendar+gant+mypage)-v2.patch* added

Bernhard Rohloff wrote:

Not that it's a biggie, as our border radius doesn't seem to be that big anyway, for cells under to stick out, it's only 3px after all, but here is the patch with hidden overflow just in case ;-)

**#7 - 2019-09-28 02:07 - Go MAEDA**

- Subject changed from *Rounded corners on table/list elements* to *Rounded corners on table.list elements*
- Status changed from *New* to *Closed*
- Assignee set to *Go MAEDA*
- Target version set to *4.1.0*

Committed the patch. Thank you for improving Redmine.

**#8 - 2019-09-28 15:48 - Go MAEDA**

- Status changed from *Closed* to *Reopened*

I will revert this change because the change caused other changes such as [#32165](#) and [#32166](#) and I cannot predict how much the impact will spread further.

[#32165](#) and [#32166](#) would be the last patches for the tables anyway, and it's really to be over with now after those two really small patches :D Just calendar and gantt were styled and structured differently than list.tables and also each-other, hence why required separate patches.

Either way, I think it's better to keep it like that rather than reverting it, since gantt and calendar seem like the only exceptions anyway. Then deliver those two in later versions (if release will happen before they ready) if necessary. We should probably add them as related too.

**#10 - 2019-10-02 16:42 - Go MAEDA**

- Status changed from *Reopened* to *Closed*

**#11 - 2019-10-03 03:41 - Go MAEDA**

- Related to Patch [#32165](#): *Rounded corners on table.cal added*

**#12 - 2019-10-03 03:41 - Go MAEDA**

- Related to Patch [#32166](#): *Rounded corners on table.gantt-table added*
