

Redmine - Defect #32041

Unable to reuse project name after delete

2019-09-09 19:16 - James Byrne

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Database	Estimated time:	0.00 hour
Target version:		Affected version:	3.4.11
Resolution:	Invalid		
Description			
<p>I created a test project (testgit) and an associated git repo (testgit.git). I then deleted the project and created a new project with a different name (testgit2) using the same repo. I then deleted the second project and added the first test project again. When I attempted to add the repo I got this message:</p> <pre>ActiveRecord::RecordNotUnique (PG::UniqueViolation: ERROR: duplicate key value violates unique constraint "changesets_repos_rev" DETAIL: Key (repository_id, revision)=(24, e8b0e6b24474df93f13ccce8f2367686901f35f2) already exists. : INSERT INTO "changesets" ("repository_id", "revision", "scmid", "committer", "commit_date", "committed_on", "comments", "user_id") VALUES (\$1, \$2, \$3, \$4, \$5, \$6, \$7, \$8) RETURNING "id"): app/models/repository/git.rb:220:in `save_revision' app/models/repository/git.rb:209:in `block (2 levels) in save_revisions' app/models/repository/git.rb:206:in `block in save_revisions' app/models/repository/git.rb:205:in `each' app/models/repository/git.rb:205:in `save_revisions' app/models/repository/git.rb:155:in `fetch_changesets' app/controllers/repositories_controller.rb:86:in `show' lib/redmine/sudo_mode.rb:63:in `sudo_mode'</pre>			

History

#1 - 2019-09-10 21:17 - James Byrne

- Status changed from New to Resolved

invalid. New repo simply took a long time to load.

#2 - 2019-09-10 21:52 - Marius BALTEANU

- Status changed from Resolved to Closed

- Resolution set to Invalid

#3 - 2019-09-10 21:52 - Marius BALTEANU
