<b>Description</b>	
<p>- Table lists (list.table), Boxes (.box) and fieldsets (fieldset) border color is #e4e4e4</p> <p>- Gantt (table.gantt-table) border color is #c0c0c0</p> <p>- Calendar (table.cal) border color is #d7d7d7</p> <p>- Separator after tabs (#content .tabs ul), Footer (#footer) border color is #bbbbbb</p> <p>- Sidebar (#sidebar), My page box (.mypage-box) border color is #dddddd</p> <p>- Buttons, input fields, text areas current border color is #cccccc</p> <p>Question is, was this intended or perhaps more, or even all of those elements could have the same border color?</p> <p>I am thinking all of them could, except maybe anything that falls under the <b>input</b> tag.</p> <p>I think before any patch is to be proposed, a discussion on which elements could be border-colored the same, would be great.</p>
