<b>Description</b>	
<p>This patch adds a link to the projects administration page (/admin/projects) on the projects page in order to improve usability.</p> <p>The current projects page has "New project" button, but does not have any other administrative buttons such as Archive and Copy. When I want to do such tasks, I often open the projects page by mistake. I think it is quite natural for admins to think that they can archive or copy projects on the page named "Projects".</p> <p>Adding a link to the projects administration page can help them. Even if they open Projects instead of Administration by mistake, the link makes easy to go to projects administration page.</p> <p>link-to-admin-projects-path.png</p>
