

Redmine - Patch #32341

Show tooltip when hovering on repeat-value link in Field permission tab

Target version:	4.0.8		
Description			
<p>"Field permission" tab in the Workflow page has " »" (repeat-value) links. It copies the value of the drop-down to all drop-downs on the right.</p> <p>The feature is useful when the Redmine instance has many custom fields, roles, or trackers. However, in my experience, not a few users don't know the feature because it is not so noticeable.</p> <p>I think it can be improved a bit by adding a tooltip like "Copy" or "Duplicate" to the link.</p> <p>repeat-value-link@2x.png</p>
