I have the same error

Thanks Matteo

- Status changed from New to Resolved

After checking for last commits, I've found the "issue" in [r2696](#). Mondays are evil, really.

Just run a rake db:migrate and everything will be fine again...
Sorry.

#3 - 2009-04-27 15:12 - Matteo Redaelli

yes, now it works

I did rake db:migrate_plugins and not rake db:migrate

#4 - 2009-04-27 15:19 - Nanda P

I am still getting the same error message

Did you restart redmine (or rails / passenger / ...) ?

Did you restart redmine (or rails / passenger / ...) ?

I restarted WebRICK & also the box itself.

Right now I am trying to install RedMine from the scratch. Hope this will work.

I will let you know how it goes in 15 mins.

Thanks for support.

The second particular issue was due to the fact that you were missing the session store secret instead of being related to [r2696](#).
