Category:	PDF export	Estimated time:	0.00 hour
Target version:		Affected version:	4.0.5
Resolution:			

Description

When exporting wiki pages to pdf and the wiki-page contain tables with colored backgrounds (e.g. we color-code the rows according to the type of information in that row), the exported tables in the pdf do not maintain the background color of the cells. Instead the background of the cells default to white or lightgrey.
