Description

Just look at: https://www.redmine.org/issues/2694

Seems the solution is gone. Its not working anymore in 4.0.4.

I get no notification mail when I was remove from assigned list.

Should be easy to fix since it was already fixed once?

History

#1 - 2020-01-03 16:14 - Robert Röttger

Other people confirmed it in 3.x already...

Doesnt work for single user or for user group assignments beeing removed.

#2 - 2020-01-05 13:14 - Go MAEDA

I cannot reproduce the problem. In my environment (Redmine 4.1.0.devel.19406), notifications are sent to the previous assignee when the assignee has been changed to another user.

Me neither now in 4.0.4.... i wonder if I havent tested well or if I had a different use case now. Sorry. Closing for now.
