

Redmine - Defect #32770

Text formatting on Redmine Home page does not work

2020-01-08 11:04 - Sebastian Paluch

Status:	Needs feedback	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Text formatting	Estimated time:	0.00 hour
Target version:		Affected version:	4.1.0
Resolution:			
Description			
<p>On Home page following text formatting is not working anymore (was working in 3.4.4)</p> <p>something *%{color:red}something%* something...</p> <p>It gets displayed as plain text. This still works in other places e.g. project overview.</p> <p>Environment:</p> <p>Redmine version 4.1.0.stable Ruby version 2.5.7-p206 (2019-10-01) [x64-mingw32] Rails version 5.2.4.1 Environment production Database adapter MySQL2 Mailer queue ActiveJob::QueueAdapters::AsyncAdapter Mailer delivery smtp</p> <p>SCM:</p> <p>Subversion 1.11.1 Git 2.19.1 Filesystem</p> <p>Redmine plugins: no plugin installed</p>			

History

#1 - 2020-01-12 20:42 - Marius BALTEANU

- File home.png added
- Status changed from New to Needs feedback
- Assignee set to Sebastian Paluch

Where did you input that text?

In Home page, I tried 2 scenarios:

1. Set as "Welcome text" and it works.
2. Set as News summary and it doesn't work.

home.png

It will be helpful to provide the steps to reproduce the problem.

#2 - 2020-01-13 09:20 - Sebastian Paluch

Sorry, I was not precise in this issue.

The exact text entered in "Welcome text" is:

```
Jump to Redmine help project:/redmine/projects/redmineusers/wiki and follow the guides...
```

This results with following text being displayed on the Home page:

```
Jump to Redmine help project and follow the guides...
```

It seems that the link makes the difference.

#3 - 2020-01-13 22:28 - Marius BALTEANU

- File *3.4.12.png* added

- File *trunk.png* added

- File *new_text.png* added

Indeed, in Redmine 3.4.12, the following text

```
Jump to Redmine help project:/redmine/projects/redmineusers/wiki and follow the guides...
```

is rendered as:

3.4.12.png

where "Redmine help project" links to "redmine/projects/redmineusers/wiki".

In current trunk, the same text is rendered as:

trunk.png

but if you change the text to

```
Jump to Redmine help project:/redmine/projects/redmineusers/wiki* and follow the guides
```

or

```
Jump to Redmine help project:/redmine/projects/redmineusers/wiki and follow the guides...
```

then is rendered as expected:

new_text.png

I'm not sure why the old format doesn't work anymore, but I've added Go Maeda as watcher, he knows better the Textile formatting.

#4 - 2020-04-11 11:52 - Marius BALTEANU

- Assignee changed from Sebastian Paluch to Go MAEDA

Go Maeda, do you have any clue about this issue?
