<b>Resolution:</b>	
<b>Description</b>	
<p>I'm looking for an additional hook to be added for when a changeset is closed via a commit - we'd like to be able to change a custom field aswell as the status and % done.</p> <p>Thanks.</p> <p><i>&lt;Kiall&gt; Hi all - i'm looking to get redmine to update a custom field when a ticket is closed via a commit - i've found where this happens at the mo, eg "issue.status = fix_status", but how would set a custom field?</i></p> <p><i>&lt;Kiall&gt; right so :) looking at the plugin guide now ... any additional tips on what events etc i should be hooking into?</i></p> <p><i>&lt;edavis10&gt; Kiall: if you post on the Redmine.org forums, someone might be able to help you with the code for that.</i></p> <p><i>&lt;edavis10&gt; Kiall: let's see...</i></p> <p><i>&lt;edavis10&gt; Kiall: only with an issue that is closed via a commit?</i></p> <p><i>&lt;Kiall&gt; yeah thats the plan ..</i></p> <p><i>&lt;Kiall&gt; just like the "fixes #1234" closing the ticket @ setting to 100%</i></p> <p><i>&lt;gepetto&gt; Kiall: #1234 is <a href="http://www.redmine.org/issues/show/1234">http://www.redmine.org/issues/show/1234</a> "Redmine - Defect #1234: NoMethodError causes HTTP 500 error - Redmine"</i></p> <p><i>&lt;edavis10&gt; Kiall: we'd need to add a plugin hook in there, I don't see one right now.</i></p> <p><i>&lt;edavis10&gt; Kiall: open a new issue describing this with me as the Assigned to and I'll add it.</i></p> <p><i>&lt;edavis10&gt; just pastie the conversation in</i></p>	

#### Associated revisions

##### Revision 2773 - 2009-05-31 00:34 - Eric Davis

Added hook, :model\_changeset\_scan\_commit\_for\_issue\_ids\_pre\_issue\_update. #3279

#### History

##### #1 - 2009-05-01 05:46 - Kiall Mac Innes

BTW - Its you guys have the same custom field as were using and looking to change "Resolution"

and ... that paste went a little all over the place attempt number 2:

*<Kiall> Hi all - i'm looking to get redmine to update a custom field when a ticket is closed via a commit - i've found where this happens at the mo, eg "issue.status = fix\_status", but how would set a custom field?*

*<Kiall> right so :) looking at the plugin guide now ... any additional tips on what events etc i should be hooking into?*

*<edavis10> Kiall: if you post on the Redmine.org forums, someone might be able to help you with the code for that.*

*<edavis10> Kiall: let's see... <edavis10> Kiall: only with an issue that is closed via a commit?*

*<Kiall> yeah thats the plan ..*

<Kiall> just like the "fixes #1234" closing the click @ setting to 100%

<edavis10> Kiall: we'd need to add a plugin hook in there, I don't see one right now.

<edavis10> Kiall: open a new issue describing this with me as the Assigned to and I'll add it.

<edavis10> just pastie the conversation in

**#2 - 2009-05-31 00:23 - Eric Davis**

- *Status changed from New to Resolved*

- *Target version set to 0.8.5*

- *% Done changed from 0 to 100*

Added a new hook, :model\_changeset\_scan\_commit\_for\_issue\_ids\_pre\_issue\_update. r2773

**#3 - 2009-09-13 13:43 - Jean-Philippe Lang**

- *Status changed from Resolved to Closed*

Merged in 0.8-stable in r2882.

**#4 - 2009-09-13 15:22 - Kiall Mac Innes**

:)

Thanks!
