Description

Textile format

New line codes are not reflected in tables created in textile format.

	Fruits	color
1	Apple Strawberry	Red

In the above example, I want to keep apples and strawberries in a single cell with new line at the code "<br>".

But in fact, there is a border between Apple and Strawberry.

	Fruits	color
1	Apple	Red
	Strawberry	

Please new line in one cell in the table by entering the code "<br>".
Right now I am referring to the web site to fix the code myself and respond.

```
Redmine version        3.4.6
Ruby version           2.3.3
Rails version          4.2.8
Database adapter       Mysql2
```
