

Redmine - Patch #32886

Rails 6: Use #media_type instead of #content_type to test the MIME type of a response

2020-01-26 15:40 - Go MAEDA

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Rails support	Estimated time:	0.00 hour
Target version:	4.2.0		
Description Rails 6 displays deprecation warning if you use @response.content_type to check the MIME type of the response. DEPRECATION WARNING: Rails 6.1 will return Content-Type header without modification. If you want just the MIME type, please use `#media_type` instead. The attached patch replaces #content_type with #media_type to surpress the warning.
