

Redmine - Defect #32896

Totals not working in projects list view

Resolution:	Fixed		

Description

Projects list view that was introduced in Redmine 4.1.0 has "Totals" checkboxes if numeric custom fields are defined for projects. The total value of the custom fields is expected to be displayed when the checkbox is on, I think.

However, the total value is not displayed even if the checkbox is on. It seems that the checkbox is not working at all.

The screenshot shows the Redmine interface with a table of projects. The 'Budget' column is visible, and the 'Totals' checkbox is checked. A pink circle highlights the 'Totals' checkbox, and another pink circle highlights the 'Budget' column header. A pink text box says 'Total budget should be displayed' with a pink circle around it. The table below shows the project data.

Name	Identifier	Description	Budget
eCookbook	ecookbook	Recipes management application	1000
> Private child of eCookbook	private-child	This is a private subproject of a public project	
> Child of private child	project6	This is a public subproject of a private project	
> eCookbook Subproject 1	subproject1	eCookBook Subproject 1	
> eCookbook Subproject 2	subproject2	eCookbook Subproject 2
