

Redmine - Defect #32973

Editing a time entry for a locked user changes the user to the current user

2020-02-08 21:55 - Marius BĂLTEANU

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Time tracking	Estimated time:	0.00 hour
Target version:	4.1.1	Affected version:	4.1.0
Resolution:	Fixed		
Description Steps to reproduce: 1. Add a time entry for another user (B) 2. Lock that user (B) 3. Edit the time entry 4. Observe that field User is selected with "me". me.png Saving the time entry, it will lose the user.

I see two options to fix this:

1. We don't allow changing the user when the time entry is logged on a locked user.
2. We add the locked user to the list of users.

2. We add the locked user to the list of users.

I think the second option is better because the limitation suggested in option 1 may confuse users. In my opinion, there is no reason to disallow

changing the user when the user of the time entry is locked.

#4 - 2020-02-09 15:32 - Marius BĂLTEANU

- File 0002-Reorder-and-rename-test-added-in-32959.patch added
- File 0001-Allow-editing-a-time-entry-logged-on-a-locked-user.patch added
- Assignee deleted (Marius BĂLTEANU)

Here is the fix for the second option, but I would like a double check on the solution. The second patch renames and reorders the test added in [#32959](#).

All tests pass: <https://gitlab.com/redmine-org/redmine/pipelines/116292306>

#5 - 2020-04-05 11:47 - Jean-Philippe Lang

- Status changed from New to Closed
- Assignee set to Jean-Philippe Lang
- Resolution set to Fixed

Committed and merged, thanks!
