

Redmine - Defect #33059

"Role" dropdown in Workflow page is unexpectedly expanded when selecting "all"

<table border="1"><thead><tr><th>Expected Result</th><th>Actual Result</th></tr></thead><tbody><tr><td>expected_result.gif</td><td>actual_result.gif</td></tr></tbody></table>				Expected Result	Actual Result	expected_result.gif	actual_result.gif
Expected Result	Actual Result						
expected_result.gif	actual_result.gif						
<p>As shown in the "Actual Result" above, even if "all" is selected in roles, pressing the Edit button will display "multiple selectbox with all options selected" instead of "all".</p> <p>After all, there is no problem because all roles can be selected. However, it is unnatural for the contents of the select box to change.</p> <p>This problem occurs because find_roles_in_workflows_controller.rb was not fixed at the same time as change #15988.</p>
