Category: Issues filter	Estimated time: 0.00 hour
Target version:	
Resolution:	
Description	
<p>Currently, the priority issues filter supports only "is" and "is not" operator.</p> <p>I think the filter will be more useful if it has "<=" (less than), ">=" (larger than), and "between" operators like numeric fields.</p> <p>Use cases:</p> <ul style="list-style-type: none">- "Priority", ">=", "Normal" : Lists issues whose priority is normal or higher. It filters out issues with lower priority- "Priority", "between", "High", "Immediate": Lists issues that has higher priority value
