

Redmine - Feature #3319

Copy/Duplicate a custom query/saved filter

2009-05-07 23:51 - James Robertson

Status:	New	Start date:	2009-05-07

Target version:			
Resolution:			
Description			
I would like to be able to copy a custom query/filter.			
I often set-up filters that are identical except for one filed (eg. assigned to). It would be handy to be able to duplicate an existing filter.

- File `add_copy_query.diff` added

Was a little bored so wrote a patch for this, hope someone likes it ;)

#2 - 2009-05-28 23:09 - ciaran jessup

- File `add_copy_query.diff` added

Hmm, can't work out how to remove pre-existing attachments, here's a new improved one :)

#3 - 2009-06-09 06:11 - James Robertson

Thanks for that. One of our developers has also worked out a solution - which he reckons is better. ;-)

I'll try to make sure he has time to share it one day soon.

#4 - 2009-06-09 08:39 - ciaran jessup

Cool, I imagine a patch would be appreciated ;)

#5 - 2014-04-24 23:42 - Svyatoslav Ida

Just use this plugin <https://bitbucket.org/svsool/query-duplicate-redmine-plugin>

#6 - 2015-09-09 17:09 - Kevin Palm

In my eyes this issue duplicates issue [#3606](#) and should thus be closed/rejected.

- Has duplicate Feature #23739: Add ability to "Duplicate" / "Save as" custom queries added

#10 - 2017-02-13 17:10 - Vladimir Perepechenko

yes, this feature would save time

#11 - 2017-03-20 06:31 - Pete Davis

Vladimir - did you see this link - already possible - [#3606#note-13](#)
