Thank you for submitting the patch but the patch cannot be committed immediately because it contains changes to existing translations. Could you explain the need for each change or remove the changes from the patch and open a separate issue for the changes? (I would suggest the latter).

#2 - 2020-03-31 17:44 - Kam Nazir

- File change_for_redmine_4_1_just_non_translate.patch added

I'v added new translation in a new patch file. but about other changes in old one:

- most changes related to difference of number representation in English and Persian. (e.g. 1 => ۱) [15 changes]
- some about changes in English translation itself. (e.g. #17219, r17963)
- and the rest is about some typo (e.g. ۱۱ <= ۱۱) or simple correction.

#3 - 2020-04-06 12:12 - Jean-Philippe Lang

- Status changed from New to Closed

- Assignee set to Jean-Philippe Lang

- Target version set to 4.1.1

Looks good to me, it's committed. Thanks!
