- File dropdown_badge.png added

I like the idea!

What do you think if we combine this with #33153 and show the status as a dropdown badge with a quick way to change the status?

I think it is really nice! My original request will be met if closed statuses have a different appearance than open statuses, like closed and open versions.

- File closed.png added
- File open.png added
- File 0001-Show-open-closed-badge-on-issue-page.patch added
- Target version set to Candidate for next major release

I've created a patch that adds the open/closed badge on issue.

Open issue:
open.png

Closed issue:
closed.png

Test results [here](#)

Should we show only open/closed badge or we should show the issue status on blue badge if it's open and on green badge if it's closed?

I think showing only open/closed is enough. The reason why I opened this issue is that it is hard to know at a glance whether the issue is open or closed. The patch resolves it very well.

If the current issue status is shown in the badge, maybe we will have to consider removing the status field that shows exactly the same information with the badge.

#7 - 2020-04-23 03:14 - Go MAEDA

- Target version changed from Candidate for next major release to 4.2.0

Setting the target version to 4.2.0.

#8 - 2020-04-23 12:14 - Go MAEDA

- Subject changed from Show open/closed status in Issue pages to Show open/closed badge on issue page

- Status changed from New to Closed
- Assignee set to Go MAEDA
- Resolution set to Fixed

Committed the patch. Thank you for the nice improvement!
