

Redmine - Feature #33352

Enable inline issue autocomplete in issue id query filter fields

Description	
The query filters on issues and related issues accept issue ids. I see several use-cases/benefits of enabling the inline issue subject autocomplete functionality added by #31989 for these fields.

+1

I think we should implement #32168 that allows entering issue ids with "#" prefix to the filters to move this issue forward. This is because issue ids inserted by the auto-complete feature have "#" prefix.

#6 - 2020-04-28 17:16 - Go MAEDA

- Related to Defect #32168: Allow issue id with "#" prefix for the value of issue ids filter added

#7 - 2020-04-28 17:20 - Go MAEDA

Since "Issues" filter that has been implemented in #4806 does not support an issue id with "#" prefix (#123), we should implement #32168 to support the auto-complete in the filter.
