

Redmine - Patch #33367

Use more efficient "exists?" instead of "first" in tests when checking the existence of rows

2020-04-29 11:05 - Go MAEDA

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Code cleanup/refactoring	Estimated time:	0.00 hour
Target version:	4.2.0		
Description			
When you check if any row exists, using exists? that does not return ActiveRecord objects is more efficient than using first.			
The attached patch replaces first with exists?.
