Redmine - Defect #33426
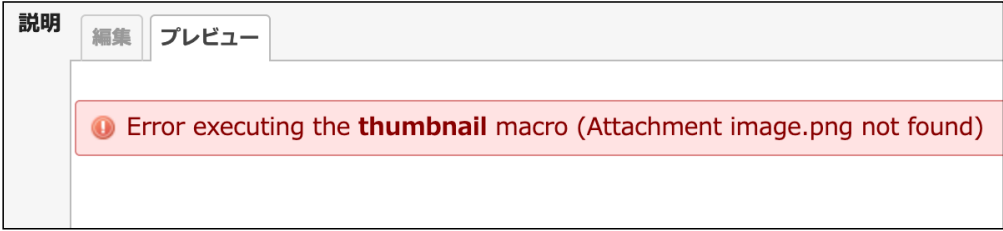

Error messages for Wiki macros are not internationalized

2020-05-10 10:07 - Go MAEDA

Status:	Closed	**Start date:**	
Priority:	Normal	**Due date:**	
Assignee:	Go MAEDA	**% Done:**	0%
Category:	I18n	**Estimated time:**	0.00 hour
Target version:	4.2.0		
Resolution:	Fixed	**Affected version:**	

Description

Error messages of Wiki macros are always displayed in English regardless of the current user's language setting. In the screenshot below, the user's language is Japanese.

Associated revisions

Revision 20013 - 2020-09-10 09:19 - Go MAEDA

Internationalize error messages for wiki macros (#33426).

Patch by Go MAEDA.

Revision 20014 - 2020-09-10 09:23 - Go MAEDA

Update locales (#33426).

Revision 20015 - 2020-09-11 02:42 - Go MAEDA

Don't internationalize error messages used when defining a macro (#33426).

History

#1 - 2020-05-10 15:29 - Go MAEDA

- File 33426.patch added

- Target version set to Candidate for next major release

Here is a patch to fix the issue.

#2 - 2020-05-12 11:55 - Go MAEDA

- Target version changed from Candidate for next major release to 4.2.0

Setting the target version to 4.2.0.

#3 - 2020-09-10 09:22 - Go MAEDA

- Subject changed from Error messages of Wiki macros are not internationalized to Error messages for Wiki macros are not internationalized

- Status changed from New to Closed

- Assignee set to Go MAEDA

- Resolution set to Fixed

Committed the patch.

#4 - 2020-09-10 12:02 - Go MAEDA

- File fix-r20013.patch added

- Status changed from Closed to Reopened

Error messages in macro method that is used when making a macro should not be internationalized for the following reasons:

- Macros are defined during the startup process of Redmine. At that point, I18n strings are not available yet
- The error messages appear only in logs, not UI

The attached patch partially reverts the change.

#5 - 2020-09-11 02:43 - Go MAEDA

- Status changed from Reopened to Closed
