| Description | | | |
| <p>On the issues show view, issue field labels for fields with descriptions are missing the dotted border-bottom styling. At a first glance the CSS seems fine though, but a second look shows that the 'overflow: hidden;' style declaration for the div.issue .attributes .attribute .label selector (source:/trunk/public/stylesheets/application.css@19786#L533) seems to be the culprit. Disabling that declaration fixes the missing border-bottom.</p> <p>On the issues edit view, the field labels are correctly rendered with the border-bottom styling.</p> <p>See the following screenshots:</p> <p><i>Issues show without dotted border-bottom styling</i></p> <p>---</p> <p><i>Issues edit with dotted border-bottom styling</i></p> <p>---</p> | | | |

- Target version set to Candidate for next minor release

Changing overflow: hidden; to overflow: clip visible; will fix the issue.

Current (overflow: hidden;):

We cannot simply remove the overflow property. Removing the overflow causes another problem as shown in the screenshot below.
