Category:	Estimated time: 0.00 hour
Target version:	
Resolution:	
Description	
<h3>What's the problem?</h3>	
If I link a group and a project the "remove user" icon disappears from the members tab in the configuration of the project.	
<h3>Current workflow</h3>	
To delete a user (member of a group) from a project (whose group has been previously added to the project) I go to Administration -> Users -> User Id -> Projects -> Delete specific project	
<h3>What do I expect?</h3>	
To be able to remove a user (member of a group) from a project (with that group added to the list of members).	
<h3>Redmine configuration</h3>	
Environment:	
Redmine version	4.1.1.devel
Ruby version	2.5.5-p157 (2019-03-15) [x86_64-linux-gnu]
