History

#1 - 2020-07-13 07:41 - Go MAEDA

- Affected version set to 4.1.1

4.1-stable and the trunk are affected. 4.0-stable is not affected.

#2 - 2020-07-29 10:04 - Yuichi HARADA

- File before.png added

- File after.png added

The following patch will solve this issue.

```
diff --git a/public/stylesheets/application.css b/public/stylesheets/application.css

I cannot reproduce this issue in my production environment with v4.1.1-stable When I open the form to create a new issue, the uploaded items have the .icon class set properly and don't overlap with the text. Nonetheless adding the .icon class would be my preferred solution for this problem.

```
<input type="text" class="icon icon-attachment filename readonly" name="attachments[1][filename]" readonly=
"readonly">
```

#4 - 2020-08-02 08:54 - Go MAEDA

- Affected version deleted (4.1.1)

Bernhard Rohloff wrote:

> I cannot reproduce this issue in my production environment with v4.1.1-stable When I open the form to create a new issue,

Sorry, 4.1.1 is not affected. The issue was caused by r19815 (#33563). So, the trunk and the latest 4.1-stable branch are affected.

#5 - 2020-09-07 15:44 - Go MAEDA

Bernhard Rohloff wrote:

> Nonetheless adding the .icon class would be my preferred solution for this problem.

Actually, it already has '.icon' class.

#6 - 2020-09-07 15:44 - Go MAEDA

- Target version set to Candidate for next major release

#7 - 2020-09-12 10:29 - Go MAEDA

- Related to Defect #33563: File selection buttons are not fully displayed with Google Chrome in some language added

#8 - 2020-09-12 11:12 - Go MAEDA

The cause of this issue is that 20px of padding-left set by source:trunk/public/stylesheets/application.css@20017#L1475 is reset to 7px by source:trunk/public/stylesheets/application.css@20017#L468.

The following patch fixes the problem described above.

```
diff --git a/public/stylesheets/application.css b/public/stylesheets/application.css
index 891faf69a..a32030039 100644
--- a/public/stylesheets/application.css
