

Redmine - Defect #33733

No trackers are selected for new projects

2020-07-15 07:36 - Yuichi HARADA

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Projects	Estimated time:	0.00 hour
Target version:	4.2.0	Affected version:	
Resolution:	Fixed		
Description			
Immediately after installing Redmine, the initial display of the trackers on Administration > Settings > Projects > [Default trackers for new projects] is unchecked.			
administration-settings-projects.png			
However, even if the screen display is the same, the behavior is different immediately after installing Redmine and after saving.			
<ul style="list-style-type: none">Immediately after installing Redmine: All trackers are enabled when you create a new project.After saving on Administration > Settings > Projects (trackers remains checked off): All trackers are disabled when you create a new project.

#2 - 2020-07-15 16:27 - Go MAEDA

- Status changed from New to Confirmed
- Assignee set to Jean-Philippe Lang
- Target version set to 4.2.0

#3 - 2020-07-15 16:34 - Go MAEDA

I assigned this issue to Jean-Philippe Lang because the patch introduces a bit bigger behavior change that changes the existing test.

#4 - 2021-03-18 22:52 - Marius BĂLTEANU

- File patch-33733.patch added

Default trackers are not part of the default Redmine settings (settings.yml), are part of the default data which is not necessary applied on all new instances.

From my point of view, to fix this, we should add Setting.default_projects_tracker_ids as part of the default data (when the trackers are added). Please try with the attached patch and let me know what do you think.

Thank you for creating the patch.

Confirmed the your patch. I think the patch is good.
When I imported the default data as follows, "Default trackers for new projects" were properly checked on.

```
$ bundle exec rake db:migrate:reset
$ bundle exec rake redmine:load_default_data
```
