Target version:		Affected version:	
Resolution:	Invalid		
Description Hello I have read on the forums on several Calendar issues and the request to see only trackers that are assigned to a given user.. But nothing has mentioned the widget that is used on "my page" . Can you tell me if anyone has developed a plugin that you can use on "my page" to filter by project or tracker type or user? strictly on the calendar widget on "my page" ? thank you Andrew Monaco
