#### Description

This patch adds open/closed badge to email notification. The badge is the same one that has been added for the issue page by [#33254](#).

Issue [#1](#) has been updated by Redmine Admin.

- **Status** changed from *Closed* to *New*

[Bug #1: Cannot print recipes](#) **OPEN**

- **Author:** John Smith
- **Status:** New
- **Priority:** Low
- **Category:** Printing

I already deployed [#33254](#) to my production environment and have found it quite useful. And now I feel that it is inconvenient that the badge does not appear in email notifications.
