| The security advisories wiki generates an Internal Error message and does not display. https://www.redmine.org/projects/redmine/wiki/Security_Advisories | | | |

History

#1 - 2020-08-24 09:01 - Go MAEDA

You can see the page now with no problems. Perhaps the server was overloaded.

#2 - 2020-09-01 12:05 - Holger Just

- *Status changed from New to Closed*

This appears to be a transient issue. The page is fully available now.
