

Redmine - Defect #33913

Input fields of the login form are too small in height on mobile

2020-08-27 08:31 - Bernhard Rohloff

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	UI - Responsive	Estimated time:	0.00 hour
Target version:	4.2.0	Affected version:	
Resolution:	Fixed		
Description			
The height of the input fields in the responsive view are too small as their height gets overridden with 'auto' which has no effect if there's no content/text inside the fields. My patch also removes the redundant width constraint and styling for tables in the login form as there aren't any.
