Description			
<p>Please change source:trunk/app/models/changeset.rb#L144 from to_utf8(str.to_s.strip) to to_utf8(str.to_s)</p> <p>The wiki formatting used by Trac requires that bullet lists include a leading space before the asterisk. The wiki formatter used in Redmine appears to accept the bullet list syntax with and without the leading space, but not a mixture of both.</p> <p>When importing a subversion repository which was used with Trac, it is important to preserve this leading space, otherwise the changeset comment is formatted by Redmine as one bullet entry containing multiple asterisks.</p> <p>Perhaps an example will help: the changeset message is</p> <ul style="list-style-type: none">* item 1* item 2* item 3 <p>which when stripped is inserted in the database as:</p> <ul style="list-style-type: none">* item 1* item 2* item 3 <p>causing Redmine to format it as:</p> <ul style="list-style-type: none">- item 1 * item 2 * item 3
