Target version:	4.2.0			
Resolution:	Fixed			

Description

The upcoming Redmine 4.2 has a two-factor authentication feature ([#1237](#)). I suggest adding twofa_scheme column to users CSV. From the perspective of information security management of an organization, the feature to obtain two-factor authentication status for all users is useful.

Possible values:

- "Disabled"
- l("twofa__#{s}__label_activate") (currently, "Authenticator app" (twofa__totp__name) is the only supported scheme)

I attach the patch.

#3 - 2020-11-11 08:20 - Go MAEDA

- Target version set to Candidate for next major release

#4 - 2020-11-11 15:46 - Go MAEDA

- File feature-34241-v2.patch added

Thank you for posting the patch. I slightly updated the patch.

- Redmine might support two-factor schemes other than TOTP in the feature, so I have changed UsersHelper#csv_content to allow other schemes
- Moved "Two-factor authentication scheme" column before timestamp columns

#5 - 2020-11-12 00:30 - Go MAEDA

- Target version changed from Candidate for next major release to 4.2.0

Setting the target version to 4.2.0.

#6 - 2020-11-13 02:12 - Go MAEDA

- Status changed from New to Closed

- Assignee set to Go MAEDA

- Resolution set to Fixed

Committed the patch. Thank you for your contribution.
