

Redmine - Feature #34302

Show parent issues in notification email

2020-11-24 09:08 - Go MAEDA

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Email notifications	Estimated time:	0.00 hour
Target version:			
Resolution:			
Description			
<p>The current format of email notifications lacks the information of parent issues. I think the information is useful to know the purpose of the subtask because the subject of a parent task usually expresses a more generic concept.</p> <p>Web UI already shows parent issues with indented style. I think it would be nice if they are shown with the same style in email notifications.</p>			

History

#1 - 2020-12-10 02:00 - Yuichi HARADA

- File *issue-of-deep-hierarchy.png* added
- File *notification-email-with-parent-task-added.png* added
- File *34302.patch* added

As shown in the image below, I think that it would be difficult to read the notification email if the parent-children hierarchies became deep, so I added "Parent task" in the issue attributes of the notification email.

I attached a patch.

#2 - 2021-01-02 12:57 - Go MAEDA

Thank you for posting the patch. I am not sure if it is appropriate to add a method to Issue model just for email notifications.
