Resolution: Invalid	

Description

I can export issues in the page (https://server_ipaddress/issues)

Also available in: [Atom](#) | [CSV](#) | [PDF](#) | [XLSX](#)

But I can't find the export issues button in any page of project (https://server_ipaddress/project_name/issues)
Can anyone help me?
Thank you!

I cannot reproduce the issue. Could you try again without plugins?

Redmine does not support exporting in XLSX format, so I think a plugin that customizes the "Also available in" section is installed in your Redmine. The issue may have been caused by the plugin.

Hi

Sorry I find out the cause. When the Plugin "Redmine Issues Tree plugin" set "Set a tree view as a default index page for issues" to default. It will hide the export button.

Thanks for help.
