

Redmine - Patch #34492

Fix passing a wrong parameter to assert_select in API test for 'GET /users/:id'

2020-12-23 05:58 - Go MAEDA

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Code cleanup/refactoring	Estimated time:	0.00 hour
Target version:	4.2.0		

Description

At source:tags/4.1.1/test/integration/api_test/users_test.rb#L121, assert_select there tests the element with User.find(1).status.to_s. However, it must be User.find(2).status.to_s because the preceding get request retrieves data for user 2.

```
test "GET /users/:id should return status for administrators" do
  get '/users/2.xml', :headers => credentials('admin')
  assert_response :success
  assert_select 'user status', :text => User.find(1).status.to_s
end
```

The following patch fixes this issue.

```
diff --git a/test/integration/api_test/users_test.rb b/test/integration/api_test/users_test.rb
index d54701ad5..bd58a39f2 100644
