Resolution:	Fixed		
Description Hello, I search many possibilites to change the default value of no_self_notified when creating a new user. Actually default is true. line 54 to 56 in /app/models/user_preference.rb <pre>unless attributes && attributes.key?(:no_self_notified) self.no_self_notified = true end</pre> might be : <pre>unless attributes && attributes.key?(:no_self_notified) self.no_self_notified = Setting.default_users_no_self_notified end</pre> and add in config/settings.yml <pre>default_users_no_self_notified: default: true</pre> With this change, we can modify the default value without changing source code of Redmine. this may be implemented in a future release ? Regards, Pierre
