

Redmine - Feature #34797

Make default_assignee available through API

2021-02-24 16:37 - Sébastien Lardière

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Mariusus BĂLTEANU	% Done:	0%
Category:	Documentation	Estimated time:	0.00 hour
Target version:			
Resolution:	Fixed		
<p>Description</p> <p>Since #33113, the default_assignee field in a project is available through the API, but in read only : we cannot create a project with this field through the API.</p> <p>Maybe I'm wrong, then, please, let me know how can I do that ?</p> <p>Is this feature can be added in the API ?</p> <p>thanks,</p>

- File request.png added
- Status changed from New to Closed
- Resolution set to Invalid

API already supports this, but it can be used only when the project that you created is a subproject and it inherits the members, otherwise, you cannot used it because the project has no members and the default assignee needs to be an existing member.

On my instance (latest trunk), the following request:

request.png
created the project with default assignee and version:

```
{
  "project": {
    "id": 12,
    "name": "abcde",
    "identifier": "abcde",
    "description": null,
    "homepage": "",
    "parent": {
      "id": 1,
      "name": "eCookbook"
    },
    "status": 1,
    "is_public": true,
    "inherit_members": true,
    "default_version": {
      "id": 7,
      "name": "Systemwide visible version"
    },
    "default_assignee": {
      "id": 3,
      "name": "Dave Lopper"
    },
    "custom_fields": [
      {
        "id": 3,
        "name": "Development status",
        "value": ""
      }
    ]
  },
}
```

```
"created_on": "2021-02-24T18:31:09Z",  
"updated_on": "2021-02-24T18:31:09Z"  
}  
}
```

I'm closing this, please reopen if something is missing.

#2 - 2021-02-25 11:32 - Sébastien Lardière

- Status changed from Closed to Reopened

Ok, thanks for your answer, I got it now, but I can't use subproject, for historical reason.

How can I setup `default_assigned_to_id` after created the membership ?

#3 - 2021-02-25 15:29 - Sébastien Lardière

Actually, it works, just put default_assigned_to_id after created the membership.

Worth to be documented, ihmo.

Thanks,

#4 - 2021-02-26 23:08 - Marius BĂLTEANU

- Category changed from REST API to Documentation

- Status changed from Reopened to Closed

- Assignee set to Marius BĂLTEANU

- Resolution changed from Invalid to Fixed

I've updated the page [Rest Projects](#).
