Resolution:	Fixed		**Affected version:**	2.2.1

Description

The email of an issue that includes a "source:" link is included in the email as a relative link ala:

```
<a href="/repositories/entry/..." class="source">source:...</a>
```

The link needs to be made absolute.

Not sure if this applies to other links besides source: links..

```
Ruby version          1.8.6 (i386-mswin32)
RubyGems version      1.3.1
Rails version         2.1.2
```

Fixed relative "source" links in email notifications (#3483).

Patch by William Baum.

Revision 13221 - 2014-07-06 12:27 - Jean-Philippe Lang

Merged r13219 (#3483).

History

#1 - 2009-10-19 06:25 - William Baum

- File source_export-only_path.patch added

- % Done changed from 0 to 80

This issue should be resolved with the attached patch.

The link_to for source: and export: links wasn't setting :only_path => only_path, so the links weren't being converted to absolute links in emails, etc..

I tested it with this comment. I was able to reproduce it. I get a mail with some invalid link. This should be corrected.
