- Related to Patch #31441: Show elements titles using jQuery UI tooltips added

#2 - 2021-03-21 07:05 - Yuuki NARA

By specifying content instead of title in tooltip, it was possible to reflect including line breaks.

I'm not used to JQuery, so I would appreciate it if you could fix any problems.

public/javascripts/application.js

```
$(function () {
  $('[title]:not(.no-tooltip)').tooltip({
+   content: function() {
+     return $(title)
+   },
  show: {
    delay: 400
  },
  position: {
    my: "center bottom-5",
    at: "center top"
  }
});
});
```
