**Description**

Added the feature to copy issue and journal links by [#34703](#34703).
I think it would be convenient if that feature could also be used in the context menu.

If you have selected one issue:

- Copy to https://redmine-host/issues/:id

If you have selected multiple issue:

- Copy to https://redmine-host/issues?issue_id=1%2C2&set_filter=1&status_id=%2A (
  https://redmine-host/issues?issue_id=1,2&set_filter=1&status_id=*)
