

Redmine - Defect #35002

Fix MS SQL on Rails 6.1

2021-04-02 07:56 - Marius BALTEANU

Status: Closed	Start date:
Priority: Normal	Due date:

Category:	Estimated time: 0.00 hour
Target version:	Affected version:
Resolution: Fixed	

Description

MS SQL support is broken for now because the gem supports only Rails 6.0, but I'm confident that will be fixed in the following weeks (there are active discussions/PRs).

<https://github.com/rails-sqlserver/activerecord-sqlserver-adapter/pull/861>

```
% bundle update
Fetching gem metadata from https://rubygems.org/.....
Resolving dependencies...
Bundler could not find compatible versions for gem "activerecord":
  In Gemfile:
    activerecord-sqlserver-adapter (~> 6.0.1) was resolved to 6.0.1, which depends on
      activerecord (~> 6.0.0)

rails (= 6.1.3.1) was resolved to 6.1.3.1, which depends on
  activerecord (= 6.1.3.1)
```
