<b>Description</b>			
While using <b>create and add another</b> button with <a href="#">a plugin I have developed</a> I have an issue with an empty drop-down in a custom field :			
1. first step :			
Project_Enumerations_create_and_add_another.png			
2. second step :			
Project_Enumerations_create_and_add_another2.png			
The issue is caused by a missing intialisation of the TimeEntry. Here is a patch to fix this.
